AUSTRALIAN CHAMPIONSHIPS OF 1966-67

The biennial Marathon Championship of Australia was held on the 21st May 1966 at Dallaratt on an out-and-back course. Despite bleak weather conditions, excellent times were recorded by the leading runners.

Albert Park, Melbourne, was the venue for the biennial 50 Kilometres Road Walking Championship of Australia, which was held on the 24th September 1966 in warm weather. The course, a flat circuit of 5 Kilometres, was conducive to fast times.

The 1967 Track and Field Championships of Australia were held on February 25th and 26th at Adelaide's Olympic Sports Field, which has all-weather rubber-asphalt tracks and runways. The meetings were favoured by fine and sunny weather on both days, but times in the sprint events were prejudiced by appreciable headwinds.

The Track and Field Championships were followed on February 27th and 28th at the same venue by the Decathlon Championship of Australia. The weather remained fine and sunny.

AUSTRALIAN RANKING LISTS FOR 1966-67

The listings which follow cover the period from April 1st, 1966, to March 31st, 1967. Wind assisted performances in the events referred to in I.A.A.F. Rule 148 (4) (g), have been, as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the twenty (in some cases Ten) Best Performers in the event.

In the case where a Ranked Performance, other than one coming within the Ten Best Performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Somewhat reluctantly the procedure has been adopted this year of converting actual times for the standard English track events to theoretical times for the corresponding metric events. It is felt, however, that in this way a truer picture of our depth in these events and of the trend of our standards will be achieved. From the point of view of a compiler of Ranking Lists, it is unfortunate that the largest Association has not elected so far to switch to metric distances for its main activities. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated.

NOTES: (1) 1950-51 Points were scored from the 1934 tables, 1951-52 to 1963-64 from the 1950 Tables, and 1964-65 from the 1962 Tables. Full information for conversion of all scores to a common basis is not available. However, the performances of J.F. O'Neill (Best) and K. Grimm (10th), if scored on the 1950 tables, would give totals of 6293 and 5140 points respectively.

(2) Leane in 1953-54, Cann in 1955-56, and Sumich in 1963-64 each had some wind assistance in the 100 Metres, Long Jump and 110 Metres Hurdles.
